For Immediate Release

SafeSourcing Honored as 2015 "Pros to Know" by Supply & Demand Chain Executive Magazine

SafeSourcing, Inc. honored among leading supply chain enterprises by global B2B trade publication.

Scottsdale, AZ – SafeSourcing Inc., a leading eProcurement company offering a complete Procure to Pay suite of applications, has been recognized as "Pros to Know" by Supply & Demand Chain Executive magazine. The honor is bestowed upon enterprises demonstrating leading initiatives that help prepare supply chains for the significant challenges of today's business climate.

Honoring the supply chain's best and brightest, *Supply & Demand Chain Executive's* "Pros to Know" awards recognize individuals and enterprises from service providers, software firms, and consultancies who helped their supply chain clients and the supply chain community prepare to meet industry challenges.

"The number of issues that can present themselves in one's business truly run the gamut--from a dysfunctional product component found within a manufacturer's tier three level of the supply chain to clarifying a business's procurement strategy for reduced costs," said Barry Hochfelder, Editor of Supply & Demand Chain Executive. "It's not always initially clear as to how broad the scale of the supply chain and its challenges really is. If there are those present in the industry who are working to overcome such issues and grow the global supply chain at the same time, they should get the recognition they deserve for their achievements."

SafeSourcing, Inc. provides cost effective tools under the SafeSourceIt™ product family that allow companies to dramatically reduce cost of goods, capital spending, and expenses in a timely manner while also reinforcing environmental and product safety programs. Focus is placed on a company's entire spend for all products and services. SafeSourcing's early stage client engagement is specifically focused on cost reduction through the use of a detailed six step process using the SafeSourceIt™ e-RFX application suite.
