

# Increase Your Productivity

## Reduce costs and extend the reach of your procurement group

SafeSourcing spend management applications are designed to reduce your company's costs associated with cost of goods, capital spending and expenses. Focus is placed on a company's entire spend for all products and services.

SafeSourcing's early stage client engagement is specifically focused on cost reduction through the use of a detailed six step process using the SafeSourcelt™ e-RFX suite.

## MAINTAIN SAVINGS

Once savings have been established, maintaining a disciplined approach to cost containment is supported through the balance of the SafeSourcelt™ suite of spend management tools listed below.

## MEASURABLE RESULTS

Results can be referenced by executive suite contacts typically generate an ROI of greater than 10X that is immediately measureable in the current financial quarter.

**SafeSurvey™** - an easy to use survey tool for internal and external data gathering.

**SafeDashboard™** - a customized snapshot for your projects, reports and KPIs.

**SafeDocuments™** - a repository of all documents related to sourcing events. Share large files with stakeholders at multiple locations.

**SafeContract™** - a repository for all contracts with search capabilities. Issues reminder emails for renewal dates, price reviews, etc.

**SafePO™** - a purchase order system.

**SafeCatalog™** - a customizable online ordering catalog.

## **e-Procurement**

**Targeting just 10% of your spend could improve your net earnings by up to 100%**

# Flexible solutions for your business needs

Leading eProcurement company providing a  
Complete Procure To Pay suite of applications

### CUSTOM SOLUTIONS

The SafeSourcelt™ product family is a cloud based Software as a Service offering. This allows companies to use as much or as little of the application family as they need.

### WEB SOLUTIONS

Companies are able to launch our services almost immediately at a cost well below what would be required to install and support a product behind a firewall. NO internal information technology resources are required and the SafeSourcelt™ solutions are accessible through the use of all industry browsers.
