

Looking For 10X ROI

Improve GM and Earnings Now!

At SafeSourcing, we help procurement teams save considerably on costs by providing tools and services that enhance the ability to do business in a better, safer, smarter, more streamlined and cost effective way. Our Customer Services team is one of the best in the industry at complementing existing procurement teams to help structure and develop projects in less time for better results.

Our white-glove managed service offerings coupled with our suite of e-procurement tools deliver referenceable savings results that are greater than 10 times the cost of our services, improving Gross Margin and Earnings significantly.

"We would not be where we are with our Indirect Spend if it were not for Safesourcing."

-Sr. VP FINANCE of \$20B Distribution Company

SafeSourcing eRFx Suite – With SafeSourcing’s innovative e-procurement tools, you can Initiate reverse auctions using the SafeSourcing Reverse Auction tool for new contract purchases, spot buys, replenishment, aggregation and collaboration with other buying organizations, saving you 30% to 40 %. Improve Gross Margin and Net Earnings in the current Accounting Period.

Supplier Database – The SafeSourceIt™ Supplier Database has over 557,000 global suppliers. It is easy to use and includes safety and eco controls.
SafeSourcing Templates Library – You can use the SafeSourcing Templates Library to reduce time and effort for new sourcing initiatives.

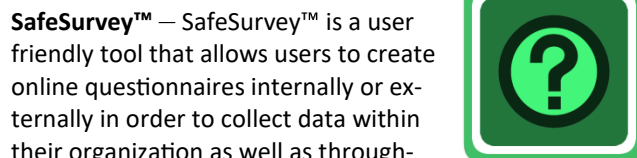

SafePO™ – SafePO™ is a cloud based, SaaS delivered, Purchase Order Management system that allows users to create, approve, and fulfill orders quickly, easily, and safely. Users can track purchase order history by a variety of criteria, such as purchase order number, company, vendor, project number, or location.

SafeCatalog™ – SafeCatalog™ is a tool that allows companies to consolidate the products and services they order into one online view for employees. When integrated with the SafePO™ module, users can have their catalog orders automatically processed and entered into an online purchase order system that allows suppliers to be notified of the order once it has been approved.

SafeContract™ – SafeContract™ is a tool that companies can use to automate and improve their contract flow by electronically capturing their company’s contracts and contract details. By implementing SafeContract™, companies can improve their contract cycles, standardize processes, reduce administrative costs, improve contract compliance, and increase the effectiveness of negotiations.

SafeSurvey™ – SafeSurvey™ is a user friendly tool that allows users to create online questionnaires internally or externally in order to collect data within their organization as well as throughout the entire supply chain area of interest. SafeSurvey™ makes it easy to create a survey, track responses, as well as view and report the results. With capability for both named and anonymous users to submit their responses, this tool is a perfect fit for quickly gathering a large variety of information from a small, medium, or large group of participants.
